Social Media Visual Moodboard

This moodboard shows the visual style for Acai Flow's social media — from photography to typography, colours, graphics, and layout. It captures a bright, fresh, and appetising aesthetic that reflects the brand's personality.

These visual guidelines are built around our 4 content pillars — Product, Lifestyle, Brand Voice, and Educate & Connect — which you'll see later.

Photography Style

Keep visuals bright, clean, and appetising. Focus on fresh ingredients, natural light, and vibrant colours. Capture real moments or simple interactions with food, and avoid dark lighting or heavy styling.

Keywords:
Bright · Vibrant · Fresh · Clean · Appetising

Staged Photography

Show:
Product focus · Ingredients & textures · Clean composition · Hands interacting with food · Brand colours or simple backgrounds

Purpose:
Highlight the product and make it look appetising

Lifestyle Photography

Show:
People eating · Real moments · Staff preparing food · In-store scenes · Natural interactions

Purpose:
Show the brand in everyday life and build connection
